TIME FOR FINISH

WILSON DECIDES IT'S TIME TO TEACH HUERTA A LESSON.

WILL NOT BACKDOWN

Republicans and Progressives in the House Enjoy Personalities While the Democrats Applaud.

(By W. C. Van Cleave.)

Washington, D. C., April 19.—The period of "watchful waiting" has come to an end and the time for a firm finish has arrived. The Atlantic fleet, with its thirteen battleships and numerous little ones, are under full steam heading post haste for Tampico to teach the Mexicans a lesson in international politeness, and Mr. Huerta has been given until 6 o'clock today to indicate his willingness to apologize unqualifiedly for an insult to the American flag.

War is not expected, but there is much suppressed excitement in official circles in Washington, and if a satisfactory reply is not received from the Mexican president, President Wilson will lay the matter before Congress tomorrow. The fleet is due to arrive at Tampico Tuesday morning when the unhappy people of that country may look upon the great floating palaces of destruction and contemplate what may follow. Mexico has only a few little gunboats which one of our big battleships could sink in short order. So it is not expected that the Mexican government will longer refuse the desired salute when it is convinced that the United States is in cold earnest. It is possible that General Huerta, seeing the hopelessness of his own struggle, may seize the opportunity to engage a first class country in the hope of uniting his own people and to avoid the humiliation of being whipped by the rebels of his own country.

Neither General Huerta nor the constitutionalist leaders have been able to appreciate the leniency of this government nor the great desire the president has had to work out the situation with peace and good will, and have slighted and insulted this government until it has become a favorite pastime. When the president's personal representative, John Lind, who arrived here a few days ago, explained in detail the situation to the president and assured him that the time for temporizing had passed, the president decided that patience had ceased to be a virtue and that these things must stop.

While war with Mexico is not expected, the government is prepared to enforce its demands and to see the matter through. Those who know the president know that when he once makes up his mind that the time for drastic action has come there will be no backdown. In upholding the dignity and honor of this country he will have the support of congress to any needed extent.

In this connection a bit of entertainment was furnished in the house a few days ago. Discussing the recent election in New Jersey, Mr. Mann, Republican house leader, predicted that in the near future Republicans and Progressives would be together, that the Progressives would join with the Republicans. Mr. Murdock, the Progressive leader, announced that when they got together the Republicans would have to join the Progressives. Uncle Sereno Payne then came into the fray and said the reason Murdock is running for the senate in Kansas is because he knew he could not be re-elected to congress, and had no hopes of being elected to the senate, but he was running for the larger office in order to provide himself a bigger funeral. Mr. Murdock came back as follows:

"Does the gentleman from New York think that I could have a bigger funeral out in Kansas as a candidate for the United States senate than he brought to the Republican party through the Payne-Aldrich tariff bill?"

The cheering was on the Democratic side.

Committees of both house and senate having proper jurisdiction are busy just now trying to whip into shape the proposed bills to regulate trusts and protect legitimate trade and commerce. The committee on interstate and foreign commerce has already reported a bill providing for a trade commission to which corporations having very large capital must report annually. This report must cover financial condition, the relation of the corporation to other corporations, its business practices and its purposes in general. The commission is authorized, when directed by the

president, attorney general or congress, to investigate violations of the anti-trust laws, to consider questions of relief in cases decided by the courts and to make investigations to determine the manner in which court decrees may best be carried out. It is one of a series of bills designed to curb the trusts without upsetting business conditions or public confidence.

There are a good many members of both houses who have endeavored to convince the president that, since this administration and this congress has done so much to alleviate the public ills and to protect the public welfare against the encroachment of selfish interests, it would be as well to allow other important legislation to go over to the next session of congress. The president, however, feels that all the measures on his program have been promised to the people and that they should be enacted into law at the earliest possible moment. He has therefore hinted that if gentlemen desire to get through early and get into the campaign for re-election, that they dispatch business from this time forward on an "express schedule." From this it is understood that he does not intend to permit anything to go over that can be done now.

The big fellows in the house who were engaged last week in a duel of words over the tolls question, a duel, by the way, on the merits of the question but not of personalities, have settled back to the even tenor of their way and are busily engaged in getting the business before the house cleared away. The big bore fellows had convictions on a debatable question and defended them in debate, but they have no time nor inclination to rail at defeat nor to exult in victory. In this Republicans are evidently disappointed.

Familiarity with the work of congress and the men who get results leads to the conclusion that it is a grave mistake for the voters of any district to make frequent changes in their representative in congress. This, of course, when a district has an industrious and honest representative. There may be a number of gentlemen in a district of equal or even greater ability than the man in congress, but ability is of little avail until a man learns the ways of congress and gets an acquaintance with the members that gives him standing. There may be plenty of men who can "learn the ropes" and become equally efficient, but if all the time is spent in learning the work by a new man every two or four years, and the man who has learned how must give way to a man new to the work, that district will be robbed of its opportunity and will reap waste instead of results.

In every vocation in life the man who knows how is the man who does things. A newcomer in town or a newcomer in a convention or public gathering rarely gets much attention or exerts much influence until he has established friendships and confidence and has displayed both ability and reliability. This is especially true in congress, where the older and more influential members send the new men to the foot of the class and watch them work up. It is always a difficult task, sometimes a very tedious one and sometimes an impossible one. A new member is under the embarrassment of coming in with a great body of men, most of whom know more about things he ought to know than he does. It takes not only ability but it takes grit and patience to get to the front in the national congress.

BASE BALL FRIDAY.

Normal Team Will Meet the Missouri Wesleyan College Team.

The Normal school base ball team will open their season tomorrow when they meet the Missouri Wesleyan college team. The Normal team is in excellent shape, having been at work for a month either in the gymnasium or on the field, and showed up well in their practice game Tuesday evening with the Company F team.

The squad has been strengthened by the coming of Adams, who is one of the best fielders and batters the Normal has ever had, and by Lytle, who comes to us with a good pitching record.

Mayor U. S. Wright will open the season for the locals by pitching the ball across the plate.

The Methodists have played several games already this season and have made a good showing.

The Normal line-up will be. Lever, catcher; Ham, Lytle, Padgett, Long, pitcher; Dyer, first base; Noblett, second base; McKee, shortstop; Bird, third base; Adams, left field; Miller, center field; Wilson, right field; utility men, Powell, Judy, M. Allison, F. Allison, Webb, Williams, Trumbeau, Quinn.

LINEBAUGH CASE READY FOR EVENTS

TO BE ARGUED BEFORE SUPREME COURT FRIDAY.

\$250,000 IS INVOLVED

Case Tried Here at June Term, 1911, and the Linebaugh Will Was Sustained by the Court.

The Linebaugh will contest case will come up before the state supreme court at Jefferson City on Friday, and the attorneys on both sides will present the case to that body. There is about \$250,000 involved in the case.

The title of the suit is Anna Rosella Andrew, James Andrew, Staco Ann Andrew, Oscar Andrew, Jacob Burch, Lucy Burch, Martin F. Burch, Ethel Burch, Alma A. Humphrey, William Humphrey, Joseph Earl Burch, Vernie Burch, Irmilla Irene Damon, Grover Damon, Elmer A. Burch and Mary Burch vs. Mary Ann Linebaugh, W. J. Linebaugh, Julia Farrans, W. W. Linebaugh, Etta Hulse, Lulu Hulse, Ada Hulse, Clara Hulse, Etta Hulse and Constance J. Burch, to set aside the will of the late Jacob Linebaugh.

The case was tried before Judge W. C. Ellison at the June term of circuit court in 1911. It was the most important will case ever tried in this court, owing to the large amount involved, and it was hotly contested. The circuit court here sustained the will as being the true will of the late Jacob Linebaugh. A motion for a new trial was filed by the defendants, being overruled, an appeal was granted to the supreme court. In case the supreme court reverses and remands the lower court the case will be tried over again here. If the supreme court affirms the lower court it will probably end the suit.

Attorneys W. A. Blagg and George Robb Ellison of this city and J. Woodson Peery of Albany are representing the Linebaughs before the supreme court at Jefferson City. Attorneys L. C. Cook and T. A. Cummins are to appear before the supreme court for the plaintiffs. The Maryville attorneys left for Jefferson City Wednesday evening.

It will probably be a month or more before the opinion of the supreme court will be known.

LOWERING THE GRADE.

Wabash Begins the Work Under the State Bridge and Will Pave the Roadway.

A gang of men commenced work this week to lower the grade of the state road under the Wabash bridge, east of Maryville, so as to give a 12-foot clearance under the bridge. The roadway will be paved with concrete and the work will be done so the traffic will not be tied up. One-half of the roadway lengthwise will be paved first so the traveling public can use the other half. The Wabash is having the work done and Roadmaster John Holamburg and Chief Engineer W. W. Greenland were in the city Wednesday in connection with the work.

When the new bridge was built there was not enough clearance under the bridge for the traveling public with loads of hay, etc. Many complaints have been made about it, and the people will be glad to know that the work is started and that the roadway will be paved.

COMPANY F TO DRILL.

Will Drill Three Nights Each Week—
Several New Enlistments.

Company F will drill three nights each week until after the war scare is settled. Colonel McDonald of the Fourth Infantry advised the officers to get busy and to have their company in as good shape as possible.

The war plans issued some time ago call for Missouri troops to encamp at Nevada for thirty days and then do border patrol work in New Mexico.

Nearly every man is eager to see active service and the company will be drilled each Monday, Wednesday and Friday evening.

Three new men enlisted Wednesday night and more have stated that they would be in the armory Friday night to enlist.

Several business men have declared their intention to enlist in case the company is called out.

A DRINKING FOUNTAIN.

One to Be Installed in the Court House Yard—Still Working on Sidewalks.

The county court intends to make the court house yard a very attractive place. In addition to the new cement sidewalks that are being built and will probably be completed in two weeks if the weather permits, a sanitary drinking fountain is to be installed for the people. The fountain will be ordered from Rundle-Spence, and is a very pretty one. The fountain will be placed about six feet from the front sidewalk in the middle of the walk leading to the entrance of the building. The walk leading to the east entrance of the building will be taken up and replaced by a much wider walk of cement. A drinking fountain will also probably be put in the court house.

The Gentle Art of Keeping Young

An art practiced not only for the fair sex. Stern man has learned its rudiments in recent years.

He does not resort to cosmetics, but to **right clothes**.

Which is to say that in a majority of cases he goes to the best men's clothes shop in town and snuggles into a **Stein-Bloch** suit.

Twaddle? Not a bit of it. **Truth.**

And why **Stein-Bloch**? Because the makers of these clothes have spent fifty-nine years learning how to make 1914 togs.

They are **younger** clothes now than last year.

Just as men who wear them are younger now than last year.

Spring and Summer styles are ready.

WILL LEAD SUFFRAGIST PARADE.

Miss Alma Nash and Her Ladies' Band Are Solicited by St. Louis Women to Lead Parade May 2.

Miss Alma Nash and her Missouri Ladies' Military band will go to St. Louis to lead the suffragist parade to be given in that city May 2. The women at whose solicitation they will go are those who accompanied our ladies' band to Washington, D. C., in March, 1912, when they led the first suffragist parade ever given in this country. Our girls led the parade down Pennsylvania avenue midst a most spectacular scene. Miss Nash and her band are justly proud of the compliment the St. Louis women have paid them.

Mr. and Mrs. Moore were called to Dubuque several weeks ago on account of Mrs. Wagner's illness. Mrs. Moore is the only surviving child. The funeral services were conducted in Dubuque at 2 o'clock Thursday afternoon.

HIGH SCHOOL NOTES.

The advanced seniors received their class pins the first of the week. The pins are of a rather plain design but are very pretty.

have been practicing at the Normal track the first of this week.

The girls of the advanced senior class are going to give a candy sale Friday afternoon to raise money to help cover the class expenses.

The advanced seniors have ordered their pennants. They are to be made up of red and black, which are their class colors.

HUERTA MAKES WAR MOVE

"SNIPERS" SHOOT FROM ROOFS

Guns of Prairie and Chester Aid
in Silencing Fire.

Washington, April 23.—Nelson O'Shaughnessy, the American charge at Mexico City, has been handed his passports by General Huerta, and is preparing to leave Mexico City. Huerta's handing of passports to O'Shaughnessy was regarded as a most sensational development in the situation and it was believed to forecast a declaration of war on the part of Huerta. The giving of passports to a minister or charge d'affaires in most cases, though not invariably, has preceded a declaration of war. Charge O'Shaughnessy telegraphed the state department, under date of Wednesday night, as follows: "Having been given my passports, I am leaving tomorrow night or Friday morning."

Vera Cruz, April 23.—Twelve Americans have been killed and fifty wounded in the occupation of Vera Cruz.

Eight men were killed and thirty wounded in the second day's fighting in the Mexican city.

Rear Admiral Frank F. Fletcher has taken up his headquarters at the Terminal hotel. The entire city is strongly patrolled and quiet prevails. Rear Admiral Fletcher is in command of the land operations, while Rear Admiral Badger, commander in chief of the Atlantic fleet, has brought his flag into the harbor on the Minnesota.

After the general advance began Mexican "snipers" on the roofs put up a stubborn resistance. There was one brisk action, the guns of the Prairie and Chester assisting in silencing a heavy fire from the naval college, shells from the Prairie finally shattering the walls.

BIG PYTHIAN MEETING.

Many Knights Are Here—Large Delegation Will Arrive On Special From St. Joseph.

A good representation of Knights of Pythias are here, having arrived last night and this morning, and a big time is expected when the meeting is called to order this evening. Eight representatives from the Stanberry lodge came in last night and others arrived from Grant City, Albany, Cameron, St. Louis and other places.

Grand Chancellor Joseph Crites of Nevada, Mo.; George W. Cary of St. Louis and John Abbott Clark of Cameron will make the principal addresses of the evening.

Cary and Clark are here and Grand Chancellor Crites is due to arrive on the special. About twenty-five members of the St. Joseph order and many representatives from other places will arrive on the special train from St. Joseph on the Burlington about 4 o'clock. The Maryville and Stanberry lodges are holding the meeting jointly and have planned to lavishly entertain the visitors.

The Wage Earners class will give the fourth of their series of free illustrated lectures Friday evening at 7:30 o'clock. The subject will be "The Battle for Health." The lecture will be delivered by Dr. R. E. Hamilton at the Buchanan Street Methodist church.

DR. DRUMMOND HERE.

Spoke at Prayer Meeting at Christian Church Tuesday.

Dr. Drummond, the missionary worker of India, spoke at the Christian church Wednesday evening on the subject "Missions in India." The address was very interesting and all members present were allowed to ask any questions during the address which they cared to in regard to the conditions in India and the missionary work.

Dr. Drummond has been associated with the missionary work in that country for about sixteen years and has been supported by the First Christian church of this place for nearly ten years of that time. He was here in January and delivered an address. He is stationed at Harda, central province of India. He left Thursday to return to that country.

WILL TEACH MATHEMATICS.

Superintendent Beasley of the Trenton Schools Will Teach at Summer Term of Normal.

Prof. George H. Beasley, superintendent of the public schools at Trenton, will teach mathematics at the summer term of the Normal. Prof. Beasley taught at the Normal last summer. He has recently been elected superintendent of the public schools at Liberty, and will take up his work there about August 1. He has been at the head of the Trenton schools for four years.

MAGAZINE DAY A SUCCESS.

Federation Collected a Car Load of Magazines and Papers—Will Furnish Rest Room.

The ladies' federation finished loading their car of magazines and papers Thursday and sent them to the paper mill at St. Louis. The ladies gathered one car of old papers and magazines in all and will receive about \$100 for them.

This money will be used to fit a ladies' rest room in the basement of the court house. There will be three rooms in all, with a spacious corridor. The county court has agreed to donate the rooms for this purpose, and the city federation has agreed to furnish them.

At present there is no place for women and children who come into the city for a day or a few hours to go and spend a few hours of the time except in the stores and on the streets. This will give them a place to which they can retire for a few hours of rest and quiet and know that they are in nobody's way.

John A. Clark Here.

John Abbot Clark of Cameron, Mo., is attending the K. of P. convention Thursday. Mr. Clark is royal viceroy of the Deities of St. Joseph, president of the fourth Pythian district, and deputy grand chancellor. Mr. Clark is making the race for Congress from the third district.

Here On Brief Visit.

Mrs. James P. Cummings of Ottumwa, Ia., came to Maryville Wednesday for a two days' visit with her father, Louis Romasser, and Mr. and Mrs. Augustus Romasser. Miss Dorothy Romasser of Kansas City, who has been visiting here, returned home Wednesday.

Mrs. T. F. Reimer attended the funeral of her former friend and neighbor, Mrs. Thomas Cox of Stanberry Wednesday. Mrs. Cox was a sister of Dr. McCaslin of that place.

This map shows the United States divided into four climatic zones. Paint must be made to fit the climate in which it is to be used. Paint for Florida won't do for Arizona or Colorado.

When you buy Lincoln Climatic Paint you can be sure it is exactly suited for this locality. It will not crack, check or peel with the various changes of weather, because it's made especially to withstand this climate.

We have a booklet which tells all about Lincoln Climatic Paints, also a booklet telling how you can do the "Home Painting Jobs" yourself. Ask for these books—they are free.

Republicans and Progressives in the House Enjoy Personalities While the Democrats Applaud.

(By W. C. Van Cleave.)

Washington, D. C., April 19.—The period of "watchful waiting" has come to an end and the time for a firm finish has arrived. The Atlantic fleet, with its thirteen battleships and numerous little ones, are under full steam heading post haste for Tampico to teach the Mexicans a lesson in international politeness, and Mr. Huerta has been given until 6 o'clock today to indicate his willingness to apologize unqualifiedly for an insult to the American flag.

War is not expected, but there is much suppressed excitement in official circles in Washington, and if a satisfactory reply is not received from the Mexican president, President Wilson will lay the matter before Congress tomorrow. The fleet is due to arrive at Tampico Tuesday morning when the unhappy people of that country may look upon the great floating palaces of destruction and contemplate what may follow. Mexico has only a few little gunboats which one of our big battleships could sink in short order. So it is not expected that the Mexican government will longer refuse the desired salute when it is convinced that the United States is in cold earnest. It is possible that General Huerta, seeing the hopelessness of his own struggle, may seize the opportunity to engage a first class country in the hope of uniting his own people and to avoid the humiliation of being whipped by the rebels of his own country.

Neither General Huerta nor the constitutionalist leaders have been able to appreciate the leniency of this government nor the great desire the president has had to work out the situation with peace and good will, and have slighted and insulted this government until it has become a favorite pastime. When the president's personal representative, John Lind, who arrived here a few days ago, explained in detail the situation to the president and assured him that the time for temporizing had passed, the president decided that patience had ceased to be a virtue and that these things must stop.

While war with Mexico is not expected, the government is prepared to enforce its demands and to see the matter through. Those who know the president know that when he once makes up his mind that the time for drastic action has come there will be no backdown. In upholding the dignity and honor of this country he will have the support of congress to any needed extent.

In this connection a bit of entertainment was furnished in the house a few days ago. Discussing the recent election in New Jersey, Mr. Mann, Republican house leader, predicted that in the near future Republicans and Progressives would be together, that the Progressives would join with the Republicans. Mr. Murdock, the Progressive leader, announced that when they got together the Republicans would have to join the Progressives. Uncle Sereno Payne then came into the fray and said the reason Murdock is running for the senate in Kansas is because he knew he could not be re-elected to congress, and had no hopes of being elected to the senate, but he was running for the larger office in order to provide himself a bigger funeral. Mr. Murdock came back as follows:

"Does the gentleman from New York think that I could have a bigger funeral out in Kansas as a candidate for the United States senate than he brought to the Republican party through the Payne-Aldrich tariff bill?" The cheering was on the Democratic side.

Committees of both house and senate having proper jurisdiction are busy just now trying to whip into shape the proposed bills to regulate trusts and protect legitimate trade and commerce. The committee on interstate and foreign commerce has already reported a bill providing for a trade commission to which corporations having very large capital must report annually. This report must cover financial condition, the relation of the corporation to other corporations, its business practices and its purposes in general. The commission is authorized, when directed by the

president, attorney general or congress, to investigate violations of the anti-trust laws, to consider questions of relief in cases decided by the courts and to make investigations to determine the manner in which court decrees may best be carried out. It is one of a series of bills designed to curb the trusts without upsetting business conditions or public confidence.

There are a good many members of both houses who have endeavored to convince the president that, since this administration and this congress has done so much to alleviate the public ills and to protect the public welfare against the encroachment of selfish interests, it would be as well to allow other important legislation to go over to the next session of congress. The president, however, feels that all the measures on his program have been promised to the people and that they should be enacted into law at the earliest possible moment. He has therefore hinted that if gentlemen desire to get through early and get into the campaign for re-election, that they dispatch business from this time forward on an "express schedule." From this it is understood that he does not intend to permit anything to go over that can be done now.

The big fellows in the house who were engaged last week in a duel of words over the tolls question, a duel, by the way, on the merits of the question but not of personalities, have settled back to the even tenor of their way and are busily engaged in getting the business before the house cleared away. The big bore fellows had convictions on a debatable question and defended them in debate, but they have no time nor inclination to rail at defeat nor to exit in victory. In this Republicans are evidently disappointed.

Familiarity with the work of congress and the men who get results leads to the conclusion that it is a grave mistake for the voters of any district to make frequent changes in their representative in congress. This, of course, when a district has an industrious and honest representative. There may be a number of gentlemen in a district of equal or even greater ability than the man in congress, but ability is of little avail until a man learns the ways of congress and gets an acquaintance with the members that gives him standing. There may be plenty of men who can "learn the ropes" and become equally efficient, but if all the time is spent in learning the work by a new man every two or four years, and the man who has learned how must give way to a man new to the work, that district will be robbed of its opportunity and will reap waste instead of results.

In every vocation in life the man who knows how is the man who does things. A newcomer in town or a newcomer in a convention or public gathering rarely gets much attention or exerts much influence until he has established friendships and confidence and has displayed both ability and reliability. This is especially true in congress, where the older and more influential members send the new men to the foot of the class and watch them work up. It is always a difficult task, sometimes a very tedious one and sometimes an impossible one. A new member is under the embarrassment of coming in with a great body of men, most of whom know more about things he ought to know than he does. It takes not only ability but it takes grit and patience to get to the front in the national congress.

BASE BALL FRIDAY.

Normal Team Will Meet the Missouri Wesleyan College Team.

The Normal school base ball team will open their season tomorrow when they meet the Missouri Wesleyan college team. The Normal team is in excellent shape, having been at work for a month either in the gymnasium or on the field, and showed up well in their practice game Tuesday evening with the Company F team.

The squad has been strengthened by the coming of Adams, who is one of the best fielders and batters the Normal has ever had, and by Lyttle, who comes to us with a good pitching record.

Mayor U. S. Wright will open the season for the locals by pitching the pill across the plate.

The Methodists have played several games already this season and have made a good showing.

The Normal line-up will be: Lever, catcher; Ham, Lyttle, Padgett, Long, pitcher; Dyer, first base; Noblett, second base; McKee, shortstop; Bird, third base; Adams, left field; Miller, center field; Wilson, right field; utility men, Powell, Judy, M. Allison, F. Allison, Webb, Williams, Trumbeau, Quinn.

LINEBAUGH CASE READY FOR EVENTS

TO BE ARGUED BEFORE SUPREME COURT FRIDAY.

\$250,000 IS INVOLVED

Case Tried Here at June Term, 1911, and the Linebaugh Will Was Sustained by the Court.

The Linebaugh will contest case will come up before the state supreme court at Jefferson City on Friday, and the attorneys on both sides will present the case to that body. There is about \$250,000 involved in the case.

The title of the suit is Anna Rosella Andrew, James Andrew, Staco Ann Andrew, Oscar Andrew, Jacob Burch, Lucy Burch, Martin F. Burch, Ethel Burch, Alma A. Humphrey, William Humphrey, Joseph Earl Burch, Vernie Burch, Irmila Irene Damon, Grover Damon, Elmer A. Burch and Mary Burch vs. Mary Ann Linebaugh, W. J. Linebaugh, Julia Farrens, W. W. Linebaugh, Etta Hulse, Lulu Hulse, Ada Hulse, Clara Hulse, Etta Hulse and Constance J. Burch, to set aside the will of the late Jacob Linebaugh.

The case was tried before Judge W. C. Ellison at the June term of circuit court in 1911. It was the most important will case ever tried in this court, owing to the large amount involved, and it was hotly contested. The circuit court here sustained the will as being the true will of the late Jacob Linebaugh. A motion for a new trial was filed by the defendants, being overruled, an appeal was granted to the supreme court. In case the supreme court reverses and remands the lower court the case will be tried over again here. If the supreme court affirms the lower court it will probably end the suit.

Attorneys W. A. Blagg and George Robb Ellison of this city and J. Woodson Peery of Albany are representing the Linebaughs before the supreme court at Jefferson City. Attorneys L. C. Cook and T. A. Cummins are to appear before the supreme court for the plaintiffs. The Maryville attorneys left for Jefferson City Wednesday evening.

It will probably be a month or more before the opinion of the supreme court will be known.

Saturday morning the preliminaries in the athletic contests will be held on the Normal school athletic field. The events will be contested in the following order: 120-yard hurdle race, pole vault, 100-yard dash, standing broad jump, mile run, high jump, 440-yard dash, hop, step and jump; shot put, half-mile run, 220-yard hurdle race, running broad jump, 220-yard dash, discus throw, half-mile relay. There will be preliminaries in all these events in the morning with the exception of the mile run, half-mile run, 440-yard dash, and the half-mile relay. LOWERING THE GRADE.

Wabash Begins the Work Under the State Bridge and Will Pave the Roadway.

A gang of men commenced work this week to lower the grade of the state road under the Wabash bridge, east of Maryville, so as to give a 12-foot clearance under the bridge. The roadway will be paved with concrete and the work will be done so the traffic will not be tied up. One-half of the roadway lengthwise will be paved first so the traveling public can use the other half. The Wabash is having the work done and Roadmaster John Holamburg and Chief Engineer W. W. Greenland were in the city Wednesday in connection with the work.

When the new bridge was built there was not enough clearance under the bridge for the traveling public with loads of hay, etc. Many complaints have been made about it, and the people will be glad to know that the work is started and that the roadway will be paved.

COMPANY F TO DRILL.
Will Drill Three Nights Each Week—Several New Enlistments.
Company F will drill three nights each week until after the war scare is settled. Colonel McDonald of the Fourth Infantry advised the officers to get busy and to have their company in as good shape as possible.
The war plans issued some time ago call for Missouri troops to encamp at Nevada for thirty days and then do border patrol work in New Mexico.
Nearly every man is eager to see active service and the company will be drilled each Monday, Wednesday and Friday evening.
Three new men enlisted Wednesday night and more have stated that they would be in the army Friday night or enlist.
Several business men have declared their intention to enlist in case the company is called out.

A DRINKING FOUNTAIN.
One to Be Installed in the Court House Yard—Still Working on Sidewalks.
The county court intends to make the court house yard a very attractive place. In addition to the new cement sidewalks that are being built and will probably be completed in two weeks if the weather permits, a sanitary drinking fountain is to be installed for the people. The fountain will be ordered from Rundle-Spence, and is a very pretty one. The fountain will be placed about six feet from the front sidewalk in the middle of the walk leading to the entrance of the building. The walk leading to the east entrance of the building will be taken up and replaced by a much wider walk of cement. A drinking fountain will also probably be put in the court house.

The Gentle Art of Keeping Young

An art practiced not only for the fair sex. Stern *man* has learned its rudiments in recent years.

He does not resort to cosmetics, but to *right clothes*.

Which is to say that in a majority of cases he goes to the best men's clothes shop in town and snuggles into a *Stein-Bloch* suit.

Twaddle? Not a bit of it. *Truth.*

And why *Stein-Bloch*? Because the makers of these clothes have spent fifty-nine years learning how to make 1914 togs.

They are *younger* clothes now than last year.

Just as men who wear them are younger now than last year.

Spring and Summer styles are ready.

WILL LEAD SUFFRAGIST PARADE.

Miss Alma Nash and Her Ladies' Band Are Solicited by St. Louis Women to Lead Parade May 2.

Miss Alma Nash and her Missouri Ladies' Military band will go to St. Louis to lead the suffragist parade to be given in that city May 2. The women at whose solicitation they will go are those who accompanied our ladies' band to Washington, D. C., in March, 1912, when they led the first suffragist parade ever given in this country. Our girls led the parade down Pennsylvania avenue midst a most spectacular scene. Miss Nash and her band are justly proud of the compliment the St. Louis women have paid them.

Mr. and Mrs. Moore were called to Dubuque several weeks ago on account of Mrs. Wagner's illness. Mrs. Moore is the only surviving child. HUERTA MAKES WAR MOVE

"SNIPERS" SHOOT FROM ROOFS

Guns of Prairie and Chester Aid
in Silencing Fire.

Washington, April 23.—Nelson O'Shaughnessy, the American charge at Mexico City, has been handed his passports by General Huerta, and is preparing to leave Mexico City.

Huerta's handing of passports to Charge O'Shaughnessy was regarded as a most sensational development in the situation and it was believed to forecast a declaration of war on the part of Huerta. The giving of passports to a minister or charge d'affaires in most cases, though not invariably, has preceded a declaration of war.

Charge O'Shaughnessy telegraphed the state department, under date of Wednesday night, as follows:

"Having been given my passports, I am leaving tomorrow night or Friday morning."

Vera Cruz, April 23.—Twelve Americans have been killed and fifty wounded in the occupation of Vera Cruz.

Eight men were killed and thirty wounded in the second day's fighting in the Mexican city.

Rear Admiral Frank F. Fletcher has taken up his headquarters at the Terminal hotel. The entire city is strongly patrolled and quiet prevails. Rear Admiral Fletcher is in command of the land operations, while Rear Admiral Badger, commander in chief of the Atlantic fleet, has brought his flag into the harbor on the Minnesota.

After the general advance began Mexican "snipers" on the roofs put up a stubborn resistance. There was one brisk action, the guns of the Prairie and Chester assisting in silencing a heavy fire from the naval college, shells from the Prairie finally shattering the walls.

BIG PYTHIAN MEETING.

Many Knights Are Here—Large Delegation Will Arrive On Special From St. Joseph.

Grand Chancellor Joseph Crites of Nevada, Mo.; George W. Cary of St. Louis and John Abbott Clark of Cameron will make the principal addresses of the evening.

Cary and Clark are here and Grand Chancellor Crites is due to arrive on the special. About twenty-five members of the St. Joseph order and many representatives from other places will arrive on the special train from St. Joseph on the Burlington about 4 o'clock. The Maryville and Stanberry lodges are holding the meeting jointly and have planned to lavishly entertain the visitors.

DR. DRUMMOND HERE.

Spoke at Prayer Meeting at Christian Church Tuesday.

Dr. Drummond, the missionary worker of India, spoke at the Christian church Wednesday evening on the subject "Missions in India." The address was very interesting and all members present were allowed to ask any questions during the address which they cared to in regard to the conditions in India and the missionary work.

Dr. Drummond has been associated with the missionary work in that country for about sixteen years and has been supported by the First Christian church of this place for nearly ten years of that time. He was here in January and delivered an address. He is stationed at Harda, central province of India. He left Thursday to return to that country.

WILL TEACH MATHEMATICS.

Superintendent Beasley of the Trenton Schools Will Teach at Summer Term of Normal.

Prof. George H. Beasley, superintendent of the public schools at Trenton, will teach mathematics at the summer term of the Normal. Prof. Beasley taught at the Normal last summer. He has recently been elected superintendent of the public schools at Liberty, and will take up his work there about August 1. He has been at the head of the Trenton schools for four years.

MAGAZINE DAY A SUCCESS.

Federation Collected a Car Load of Magazines and Papers—Will Furnish Rest Room.

The ladies' federation finished loading their car of magazines and papers Thursday and sent them to the paper mill at St. Louis. The ladies gathered one car of old papers and magazines in all and will receive about \$100 for them.

This money will be used to fit a ladies' rest room in the basement of the court house. There will be three rooms in all, with a spacious corridor. The county court has agreed to donate the rooms for this purpose, and the city federation has agreed to furnish them.

At present there is no place for women and children who come into the city for a day or a few hours to go and spend a few hours of the time except in the stores and on the streets. This will give them a place to which they can retire for a few hours of rest and quiet and know that they are in nobody's way.

John A. Clark Here.

John Abbot Clark of Cameron, Mo., is attending the K. of P. convention Thursday. Mr. Clark is royal vize of the Dokeys of St. Joseph, president of the fourth Pythian district, and deputy grand chancellor. Mr. Clark is making the race for Congress from the third district.

Here On Brief Visit.

Mrs. James P. Cummings of Ottumwa, Ia., came to Maryville Wednesday for a two days' visit with her father, Louis Romasser, and Mr. and Mrs. Augustus Romasser. Miss Dorothy Romasser of Kansas City, who has been visiting here, returned home Wednesday.

Mrs. T. F. Reimer attended the funeral of her former friend and neighbor, Mrs. Thomas Cox of Stanberry Wednesday. Mrs. Cox was a sister of Dr. McCaslin of that place.

This map shows the United States divided into four climatic zones. Paint must be made to fit the climate in which it is to be used. Paint for Florida won't do for Arizona or Colorado.

When you buy Lincoln Climatic Paint you can be sure it is exactly suited for this locality. It will not crack, check or peel with the various changes of weather, because it's made especially to withstand this climate.
